### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:
  - a). The abstract of the disclosure is objected to because it does not refer to the claimed invention, which is a method for the detection of multiple sclerosis by evaluating transferrin binding in brain tissue. Appropriate correction is required.
  - b). The amendment to the claims filed on June 23, 2004 is considered non-compliant because it has failed to meet the requirements of 37 CFR 1.121, as amended on June 30, 2003 (see *68 Fed. Reg. 38611*, Jun. 30, 2003) with respect to claim status identifiers. Specifically, claims 11-16 are presented as “Withdrawn” claim, while the correct status of the claim appears to be “Cancelled”, see amendment filed on December 08, 2000. Appropriate correction is required.
  - c). It has been noted that Preliminary Amendment to the specification, which included the reference to the provisional application 60/119,359, is currently not present in the file of the instant application. If Applicant wishes for this Amendment to be of record, Applicant needs to resubmit the above mentioned Amendment. Alternatively, Applicant might consider filing an Application Data Sheet, which would include claim of priority to the provisional filed application.
2. Claim 27 is allowed.
3. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
